It is jamming as it feeds into the copier from the tray. What can I do Use a thin but strong piece of card board such as the back of. OEM Products come with a manufacturer warranty only. The amount of pages can vary depending upon the amount of ink printed onto each page. 5% page coverage is a standard Canon specification We stand behind our products 100%, as these are not manufactured by Canon. Regular ink dries quickly, which is why cartridges for inkjet printers do not last long. Laser Printers use toner, which is ink in the form of powder.Most of the time compatible cartridges work fine with Canon copier. However using toner cartridges from Canon ensures higher quality copies. Plus even though compatible cartridges may be priced lower you will save money with cartridges from Canon in the end since you get more copies per cartridge and guaranteed quality prints. Using cartridges from other companies with your Canon copier may result in you having to print a copy several times to get one that is perfect. However with Canon toner cartridges you will get high quality copies every time. Often when you first purchase your Canon copier you don't anticipate having problems with it and lose track of the manual. Luckily you can download a manual for the Canon Copier PC6RE online. The error message won't go away simply by shutting the copier off and turning it on again. Most commonly you will need to change the fuser lamp. We stand behind our products 100%, as these are not manufactured by Canon. It is affordable to run and offers quality output. Toner cartridge costs are very low, thanks to affordable Canon PC6 toner prices. Pros However its control panel is easy to use and has buttons for frequent tasks that make it quick and easy to use.

Toner cartridges are easy to replace and are very affordable. Cost per page printing with the Canon PC6RE is very affordable. There is also a toner saver mode that will reduce the amount of toner you use, ensuring that your toner cartridges last longer. The Canon PC6RE may not be the solution you are looking for your office. However for personal use or a home office, it is inexpensive and offers the functions that you will need. It could be faster, but it is an impressive device with a solid design. Cons It also lacks many useful features such as stapling and collating. Overall it is perfect for any home or small office. However it lacks many of the features that you will find with a larger printer. I must feed it through the manual feed only for it to work properly. I have purchased a brand new paper cassette std 8.5 x 11 and also tried a cassette from a PC25, no difference.

The pickup rollers are not very accessible, but I tried cleaning them but it did not affect the problem. I don't suppose there is a quick fix for this. Any advice is helpful, I've fixed laser printers before and am not afraid to take things apart. Like Red Green says, if it ain't broke, you're not trying. I don't know what you cleaned them with, but you should try some rubber roller rejuvenator on them first before you attempt to replace them. Russ might be able to help you with the rollers. I try not to get involved with copiers too much. Where can I get that part as well? The printing is fine though. Any suggestions? Exit sensors are spring loaded plastic arms that the paper pushes in and out of an optical sensor. Look for it. You can move it with your finger and see if there is something visibly wrong with it. The optical part never fails, but the arm sometimes gets knocked off its mount or breaks.
